SUMMARY

An enthusiastic Diploma in Information Technology student with a solid foundation in web development, networking and software design. Quick to learn new technologies and eager to apply problem-solving skills to real-world projects. Committed to continuous growth, open to innovative ideas and seeking an internship from 12 January 2026 to 31 May 2026.

EDUCATION

- Diploma in Information Technology** 2024 - 2026
Tunku Abdul Rahman University of Management and Technology, Kuala Lumpur, MY CGPA: 3.83

PROJECTS

- Simple Pomodoro Timer**
A productivity tool that helps users manage focus and break sessions using the Pomodoro technique
 - Implemented core Pomodoro functionality using Python with a class-based structure, showcasing inheritance and encapsulation.
 - Designed subclasses to manage timer logic, session tracking, and user interaction, demonstrating the four pillars of OOP.
 - Enhanced usability by providing a simple and intuitive interface for managing focus and break sessions.
- House Rental Platform**
Developed a comprehensive web-based platform for online clothing retail
 - Designed and implemented house listing, search, and filtering features using ASP.NET.
 - Integrated CRUD operations with MySQL Server for property and user account management.
 - Created a user-friendly interface with HTML, CSS, and jQuery to enhance usability.
- Eye-Controlled Action Trigger**
A Python-based tool that uses facial landmark detection to perform actions based on eye movement.
 - Utilized OpenCV and dlib to detect eyes and calculate the Eye Aspect Ratio (EAR).
 - Triggered mouse clicks using PyAutoGUI when eyes remained closed beyond a threshold.
 - Explored applications in accessibility tools and gesture-based automation.

LEADERSHIP AND ACHIEVEMENTS

- Competitor – WorldSkills Belia IT Network Systems Administration 2025** 2025
Malacca, Malaysia
 - Participated in a national-level competition, demonstrating skills in Linux and Windows Server administration, Cisco networking configuration, and network troubleshooting.
 - Configured enterprise-level VLANs, VTP, STP, DHCP, EtherChannel, and EIGRP using Cisco Packet Tracer and CLI.
 - Implemented network security best practices, including Group Policy configuration, user authentication mechanisms, and role-based access control.
- Class Representative** 2024 – Present
Tunku Abdul Rahman University of Management and Technology, Kuala Lumpur, MY
 - Coordinated communication between students and lecturers, ensuring effective communication of academic information.
 - Assisted in organizing academic activities and resolving class-related issues efficiently.
